BELGIQUE

Hasselt, 01/02/2014

Dear Madam, Sir,

I refer to the cooperation agreement reached between the Fédération Cynologique Internationale and the International Federation of Rottweilerfriends (Kooperationsvereinbarung zwischen der Fédération Cynologique Internationale und der Internationale Föderation der Rottweilerfreunde) dd. 24.07.2006.

I also refer to the decision of the FCI to invite the winner of our worldchampionship to participate the FCI worldchampionship IPO III, for which I would like to express our repeated sincere thanks as this offers us the opportunity to show the world the qualities of the Rottweiler as a utility breed.

Our International Federation organizes an annual Worldshow and a Worldchampionship IPO III ABC.

At these events, the following titles are awarded :

- **Worldshow :**

- o The winning dog and female in youth class (9 – 18 months) :

IFR youth World Winner (year)

- The best dog and female chosen from the first placed dogs (on condition they are qualified as Excellent) in intermediate, open, working and champion class :

IFR – World Winner (year)

- Worldchampionship IPO III ABC :

The winner of the individual competition : **IFR Worldchampion (year).**

We dare to ask you to officially recognize these titles granted by our International Federation of Rottweilerfriends.

Such recognition by the FCI would greatly contribute to the importance and influence of these titles and, very importantly, would enable us to ask FCI-affiliated national kennelclubs to also recognize these titles and to mention them on the pedigrees of the concerned dogs and descendants.

It goes without saying that this would also be an important support of our international efforts to improve the breeding, keeping and education of the Rottweiler as the breed is defined by the FCI-breed standard nr. 147.

I thank you for the attention that will be given to our request and look forward for your answer.

With kind regards,

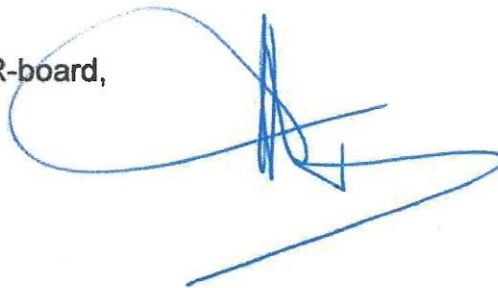

On behalf of the IFR-board,

D. Vandecasteele.

Vice President IFR

Objet : Request from the International Federation for Rottweilers

Dear Mr Vandecasteele, Mr Vice-President

Your above and attached request refers.

Further to consulting the FCI General Committee, I was instructed to inform you that although the titles **IFR youth world winner, IFR world winner and IFR world champion** are not recognised as official FCI titles, the FCI has no objections if the National Organizations include them on their national pedigrees."

We thank you for your cooperation,

Yours sincerely

Y. De Clercq
FCI Executive Director
